**Nippon Flour Mills (Shanghai) Co., Ltd. Awarded ISO9001
plus HACCP Certification**

Nippon Flour Mills Co., Ltd. (President: Wataru Aosaki) is pleased to announce that its Chinese subsidiary Nippon Flour Mills (Shanghai) Co., Ltd. (Chairman: Noboru Kizawa, "NFM Shanghai"), which manufactures and sells premixes and other products has been awarded ISO9001:2000 plus HACCP-EC-01 certification. Through the further strengthening of the safety management system and the shortening of export application procedures that will result from this certification, operation engaging in exports from Shanghai to third countries can be expected to expand.

Recently Chinese food products and manufactured goods have received criticism from some quarters, but NFM Shanghai is steadily increasing shipments and this certification is also expected to increase the competitiveness and brand power of Nippon Flour Mills and NFM Shanghai. Moving forward, NFM Shanghai will push safety to the forefront and work to expand sales, not only sales of raw materials to Japan for use in end products, but also sales of products to the Chinese domestic market.

Nippon Flour Mills will make the most of business opportunities in the promising Chinese market and promote global business in the United States, Thailand and other parts of the Asia-Pacific region, with the aim of making its presence felt as a multi-faceted global food company.
